

CLAIMS

What is claimed is:

1. A natural composition for boosting the libido of an individual, said composition comprising an effective amount of an aphrodisiac and a compound to increase blood flow to the pelvic area in a pharmaceutically acceptable carrier.
2. The composition according to claim 1, wherein said composition further comprises a estrogen producing compound to cause the body to produce natural estrogen.
3. The composition according to claim 1, wherein said composition further comprises a sexual functioning compound which promotes healthy sexual functioning and insures vaginal lubrication.
4. The composition according to claim 1, wherein said composition further comprises a dryness preventing compound to reduce vaginal dryness.
5. The composition according to claim 1, wherein said composition further comprises a menstrual affecting compound to create positive effects on the menstrual cycle.
6. The composition according to claim 1, wherein said composition further comprises a neurotransmitter affecting compound which intensifies neurotransmitter pleasure.
7. The composition according to claim 1, wherein said composition further comprises a sexual power compound which increases sexual reproductive powers.
8. The composition according to claim 2, wherein said estrogen producing compound causes clitoral sensitivity.

9. The composition according to claim 1, wherein said composition is delivered orally.
10. A natural composition for boosting the libido of an individual, said composition comprising an effective amount of a compound for driving blood flow to the penis and an aphrodisiac in a pharmaceutically acceptable carrier.
11. The composition according to claim 10, wherein said composition further comprises testosterone production compound for increasing natural production of testosterone
12. The composition according to claim 10, wherein said composition further comprises a sperm production compound which elevates sperm production.
13. The composition according to claim 10, wherein said composition further comprises a heightening compound which heightens sexual arousal, function and performance.
14. The composition according to claim 10, wherein said composition further comprises a circulation affecting compound to assist in the circulation of smooth blood flow.
15. The composition according to claim 10, wherein said composition further comprises a boosting compound to boost energy and stamina.
16. The composition according to claim 10, wherein said composition further comprises a neurotransmitter affecting compound which intensifies neurotransmitter pleasure.
17. The composition according to claim 10, wherein said composition further comprises a sexual power compound which increases sexual reproductive powers.
18. The composition according to claim 10, wherein said composition is delivered orally.
19. A method of increasing the libido by administering an effective amount of composition including an aphrodisiac and a compound to increase blood flow to the pelvic area in a pharmaceutically acceptable carrier.

20. The method according to claim 19, wherein said administering step includes orally administering the composition.
